

FLOWER LOVER
SUB-IRRIGATION PLANTERS
PRODUCT CATALOG

We love design

Simply clever lines. Stylish high-gloss metallic surface.

We love plastic

UV resistant, weather-proof, light-weight yet durable. Plastic yet lovable!

We love to play

Combine diverse shapes and sizes to make unique sets. Go crazy!

We love space

Outside or the inside. Patio, shelf or bathroom floor. Table, window or as a lovely gift. Nothing is impossible!

We love to grow

Years of experience led to the development of Flower Lover integrated sub-irrigation system. Balanced technically to suit most plants. Integrated aesthetically to please your heart.

Flower Lover
CUBICO

The cube is back! We can admire its perfect dimensions yet again, allowing an impressive variety of design applications. The beauty of CUBICO finds itself in simplicity, amplified by sharp edges refracting the light. Small cubes, medium cubes or large cubes – you watch them and you wish to play with them endlessly. CUBICO is the art of play in your hands, CUBICO is the part of your daily small bites of joy, CUBICO is a part of a set you will never stop playing with. Feel the joy of your own creativity. Let your apartment, patio or garden feel the love of CUBICO.

“the joy of play”

Flower Lover
TRIANGLE

Dynamic, extravagant and sharp design – a poet could not describe TRIANGLE. It has been designed for all lovers of novel solutions. Excels in revitalising any corner, brightens up dull places on its own or in combinations with Cubico. Rotate the TRIANGLE to achieve diverse light effects. You can bet it will attract any design appreciation eye. TRIANGLE decorates every modern interior or unique exterior. Give the love of TRIANGLE to your flowers and let them feel being appreciated.

“unique from all angles”

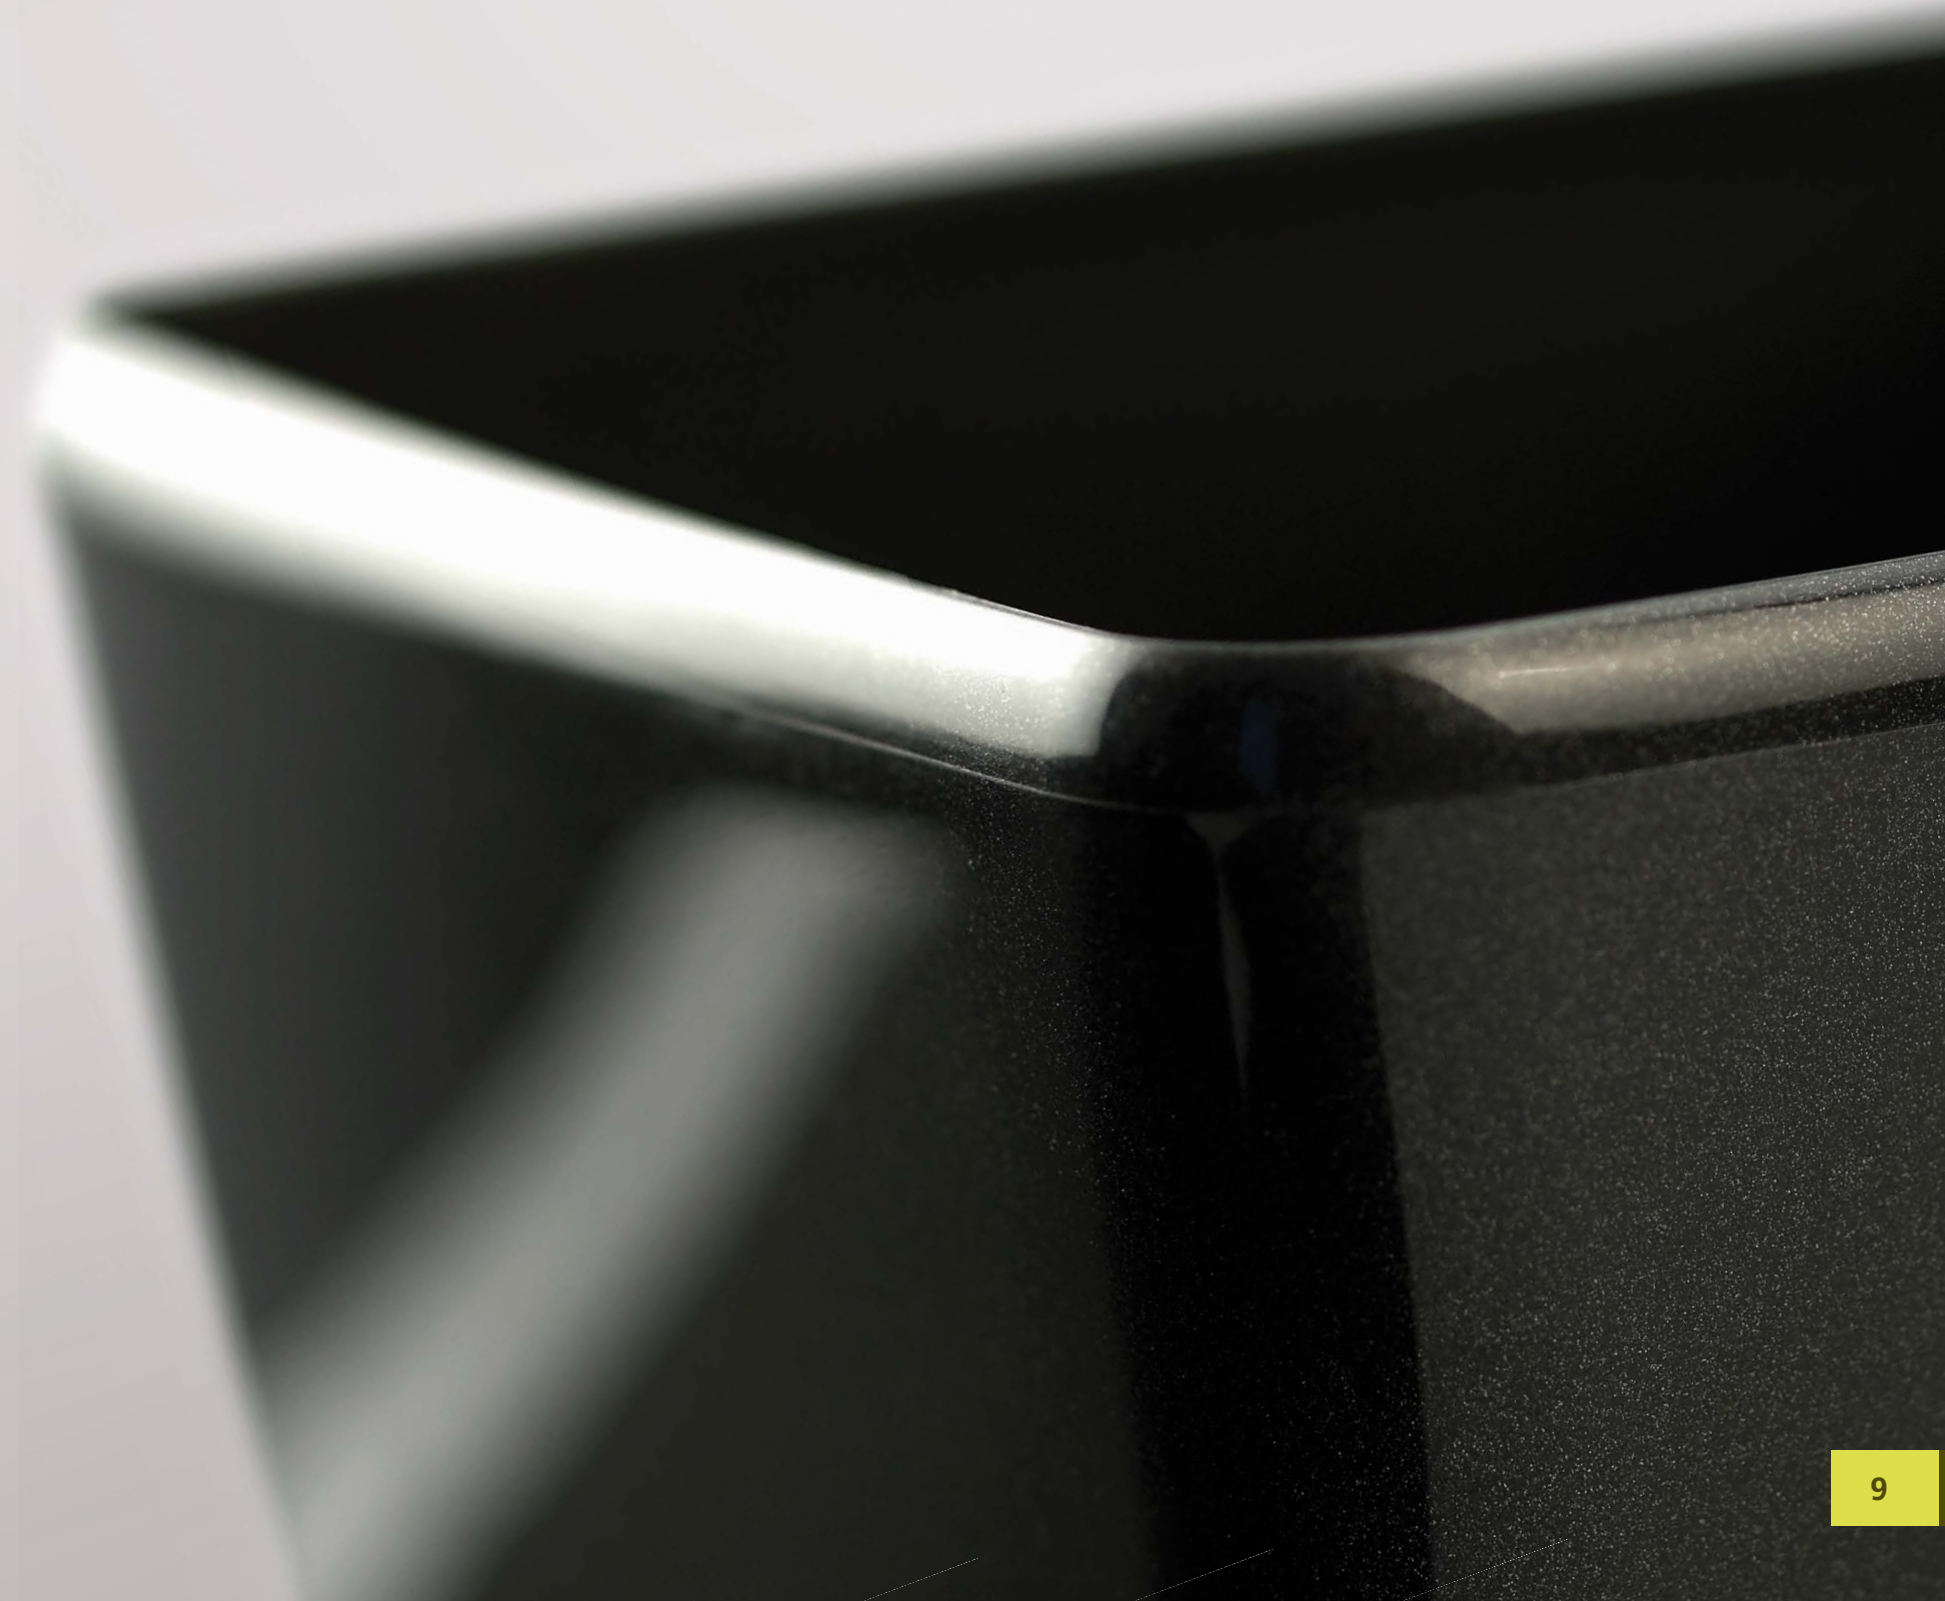

Flower Lover

QUADRATO

Gracefulness and elegance of curvy lines of QUADRATO resembles the beauty of desert scenery, where the wind plays with the sand to create one dune after another. Everything there is just interwoven with rays of light and filled with harmony. QUADRATO magnifies the feeling of omnipresent tranquillity and comfort, gentle allure and perfect symphony. QUADRATO is the quintessential part of every loving and comfort space.

“harmony of elegant lines”

Flower Lover Play!

Sophistication is true only when one does not take it too seriously. That is where Flower Lover Play! comes. The true sophistication of Flower Lover is best expressed in the product line as a whole. Combine shapes to form geometrical or random patterns, change and move various sizes, colors and shapes. Customise it to suit your very own setting or change it randomly to evoke different moods! And when you run out of ideas, if at all, just change the frame colors! Flower Lover Play!

Flower Lover Sub-irrigation system

Years of research, testing and experience define the sophisticated Flower Lover sub-irrigation system. Each system specially designed for each shape suits best to most flowers. Please refer to the tables at the back of the catalogue to check what options apply to each of the Flower Lover products. Whether you go for the grate or liner we made sure you can rely on the system to do its job!

Separating grate

The large liner and grate only systems are equipped with the separating grate. The carefully located conic holes allow the flower's roots to reach the water and hydrate. Simple, as nature intended!

Filling hole

We know how inconvenient it may be when you spill water everywhere but into the watering system. We have listened and therefore designed a larger yet elegant filling hole with extra space just to make it easier for you!

Water level indicator

The indicator allows you to see the current water level and shows the recommended minimum and maximum levels of water using the red lines on the crystal clear tube.

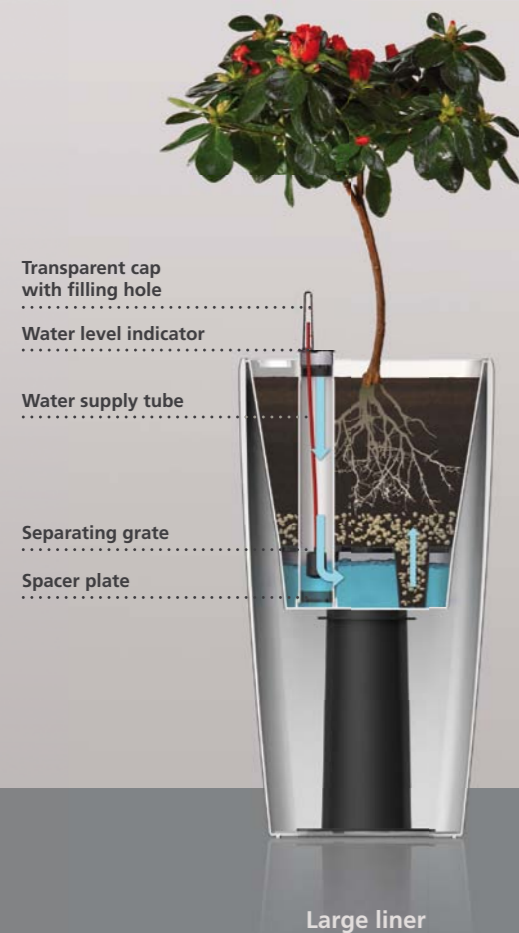

The sole purpose of the two spacer plates is to make sure the indicator is always in a perfect vertical position. But do not worry, this piece is provided already assembled for you!
